Accountability
Program...

**...to help you
jump-start and
fast-track
your ideas.**

THE 3E METHODOLOGY

The program is based on a tried and tested 3E learning model. It has been proven that growth is achieved through **10% education, 20% exposure and 70% experience.**

HOW THE PROGRAM WILL RUN

Through this Coaching Program, we will work closely with you and a select number of other goal smashers, adopting TA's cutting-edge coaching framework. Our program methodology adopts four critical pillars:

1. Core Curriculum and Tools:

Covering 5 educational modules taught through 12 weeks.

Modules would adopt the Visioning, Clarify, Systemize, Launch and Cruise – VCSLC model.

2. Congruent Peer Partnership:

We will pair you with another goal smasher whom you will be liable to be fined-by when you default on set milestones. You will draw extraordinary value from this partner, who is more experienced, thus leading to an experiential transformation.

3. Coaching and Mentorship:

You will receive customized assessment and guidance on your goals as a transformational experience for a 90-day cycle.

Offering you the support, hand-holding and accountability needed to execute. Industry leaders with a wealth of experience would share practical insights to inspire and change your perspective to become an intentional individual.

4. Congruent Peer Partnership:

You will be exposed of a powerful community of forward thinkers sharing their success stories, failures and learnings. This will cause a shift in your internal environment, inspiring you to evolve and thrive.

OUR 4C STRATEGY

Through this Coaching Program, we will work closely with you and a select number of other visionaries, adopting TA's cutting-edge coaching framework to help you activate, actualize and accelerate your grand ideas, insights and inspiration. Our program methodology adopts four critical pillars:

Cohort1 Goal Smashers Testimonial

Joshua Adedoyin

I joined T.A's 90 days club because I actually needed an accountability club or partner in my career. And it made me consistent and pushed me to always be a better version of myself daily.

90DAC made me feel proud of myself because I achieved my goals for the first quarter. The master-class sessions were so impactful that participants would need to go back afterward to watch again.

My recommendation to other is that this program will help you become more accountable and push you to achieve your set goals. I recommend you get on the next cohort.

Oluwatosin Rotimi

T.A's 90 days club has transformed my ability to set timelines and track my goals. This ability was important for me to develop myself and become a person of value, and that was why I joined the club. Coach T.A and her team made my transformation possible and my journey memorable.

Club activities like the book reviews and expert-led master-classes, amongst others, were the most helpful in my opinion.

The experience made me feel valuable and has improved my self-worht. I 100% recommend it for you.

Sharon Rowland

As a member of 90DAC, I became more intentional about God and my goals. I also became more responsible, which is something I used to shy away from. The changes I made, made me want to do more, it was more like "Sharon you did it, you see there is so much more you can do" and this is something Coach T.A once said to me.

I joined the accountability club because I was tired of holding off and knew I needed to do better, I knew being accountable and 'gingered' by someone would help a person with my personality type accomplish their goals.

T.A was a major impact on me, she wasn't just being a coach, but she genuinely cared about me as a person and my goals. The masterless by Faith Abiodun made a lot of difference in my mindset.

There is still a lot to improve on and accomplish, but I am super grateful to be part of this cohort.

Simon Uka

I joined the 90 days club because I knew I needed to be accountable to someone or a community that would support me in achieving my goals.

Massive changes happened in my perspective on setting and following through with my Goals. My biggest change came, by just being part of a community with amazing people, who are intentional about achieving more. The changes made me feel phenomenal. I haven't been the same after this big shift!

I was impacted by my assigned accountability partner as well as Coach T.A who impacted me the most with her great personality, patience, accommodating nature, and readiness to give help.

90 DAC with Coach T.A is a phenomenal experience, don't miss it, if achieving your goals is so important to you. Everyone who gets this opportunity should jump on it fast. This is telling you to join the next cohort, and your future self will be grateful to you that you took the bold step. I will be at the next cohort too.

Eniola D.

I have learnt through the 90 Day Accountability Program that being successful takes patterned deliberateness. This alone has changed my approach to things.

Onyinyechi P.

This program really helped me to learn and understand myself, it developed and improved my self esteem and confidence.

The elements put in place pushed me towards achieving the desired goal for the whole program. They were effective structures for guidance towards achieving the set goals.

Ayubapreye M.

The first time meeting with my accountability partner was one of the best form of therapy I've experienced. A therapy because of my state of mind at that period. Which was a tough one. Though a simple call but it was worth a million dollars.

It was a great experience. I really needed the accountability at this time. I found my 1:1 with Coach TA very valuable. I applaud and appreciate the systems she put in place to ensure structured follow up. I also loved the book we reviewed. I have the insights very useful and relevant to my current needs. Finally, I love my accountability partner. Thank you so much for the great work.

Ifeoluwa E.

This program made me realize, 'I am the architect of my own success by taking intentional steps and not leaving anything to chance'. Being in a community that pushed me, made me accountable and helped me get result faster.
